DATE: December 3, 1998

ATTN:

REF: Decommissioning Proposal

HEVI-DUTY SALES OFFICE: Roynon Electrical Products Co.

Hevi-Duty is pleased to submit the following proposal to Jefferson Processing. This quotation is effective for 30 days acceptance.

DISPOSAL CHARGES

BULK OIL (Ranging from 1300 to 270,000 PPM PCB): Disposed of by incineration: \$85,618.00

DISPOSAL OF PCB TRANSFORMERS (over 500 ppm PCB): Units testing over 500 ppm PCB will be disposed of by one of the following methods:

High Part Decommissioning - All fluids are incinerated and metals are shredded and recycled: \$2.40/lb

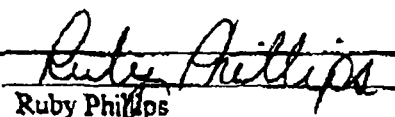

Drain, Flush and Landfill - Unit is drained, flushed, fluids are incinerated, and the carcass is landfilled: \$1.00/lb

Pricing is based on the following:

- Free and clear access to the units
- Units are not to be leaking at the time of pickup
- Removed from service dates not exceeding 270 days at the time of pickup
- Should removed from service dates exceed 270 days at the time of pickup or additional PCB wastes be identified or any item not conform to specifics as noted, additional charges will apply

This proposal may be rescinded or modified should the environmental regulations or interpretation of the environmental regulations governing the handling and disposal of any of the previous material change or with 30 days written notice to Jefferson Processing.

If you have any questions, please contact Ruby Phillips or your Representative at Roynon Electrical Products Company.
